

Aymeric PALLANDRE

Electrical Engineering Internship

07 82 14 25 22
aymeric.pallandre@etu.inp-n7.fr
Toulouse

LANGUAGES

English: B2 Level (TOEIC)
Italian: A2 Level

KEY PROJECT

Design of an EV Charging Station (7.4 kW AC)
Co-development of a domestic station integrating dynamic load management by processing the TIC signal from a Linky smart meter.
The project required C programming on an Arduino microcontroller and PCB schematic design using KiCad.

HOBBIES

Cycling
Badminton
Sporting events

EDUCATION

Engineering Student at INP-ENSEEIHT, Electronics, Electrical Energy and Automatics Department
INP ENSEEIHT (31)
2026/2029

University Diploma in Technology (DUT) in Electrical Engineering and Industrial IT, Electrical Energy Mastery Option
Université Grenoble Alpes (38)
June 2026

High School Diploma (Baccalauréat), majoring in Mathematics and Engineering Sciences, with Honors
Lycée des Horizons (42)
June 2024

PROFESSIONAL EXPERIENCE

Assistant Electrical Design Engineer Intern
Actemium Saint-Étienne (42), 12 weeks, 04/2026
Creation of industrial electrical schematics
Reading technical documentation and analyzing specifications

Production Worker
Entreprise Chabanne, Chamboeuf (42), 5 weeks, 07/2025
Production of metal parts and strips
Industrial environment work and team spirit

Landscaping Worker
The municipality of Saint-Galmier (42), 1 week, 07/2024
Hedge trimming, flower pruning, and watering
Autonomous and meticulous execution of tasks

Slaughterhouse Logistics Worker
APAB Andrézieux Bouthéon (42), 4 weeks, 06/2024
Cold chain management, waste sorting, and quality control
Strict compliance with hygiene standards and responsiveness
